Description:

This spacious plot of 1,566 m² offers a unique investment opportunity. There is currently a building on the site that needs to be completely demolished to make way for a new construction project. The plot is located in the coveted RU-3 zone, which means that development of up to 35% of the plot area is permitted. This corresponds to a maximum buildable area of 547.1 m².

Up to two storeys with a maximum height of 8 meters can be built. The floor area (i.e. the area that the building occupies on the plot) may also be up to 35% of the total area, which corresponds to an area of 547.1 m². On two floors, this results in a maximum living space of 1,094.2 m².

The construction project must be officially approved, so you have the opportunity to plan the new home according to

your own ideas. With its impressive sea views, this plot offers an excellent opportunity for investors looking for an exclusive building project.
