Location:

The municipality of Icod de los Vinos is located in the northwest of Tenerife and covers an area of about 90 km². It is also home to the Drago Milenario, the 1000-year-old dragon tree (*Dracaena draco*), which has been a national monument since 1917. On the coast there is the Playa de San Marcos and the lava tunnel Cueva del Viento. Furthermore, from Icod de los Vinos you have one of the best views of the Pico del Teide, the highest peak in Spain. Icod de los Vinos is known for its viticulture and fishing, which is of course also reflected in the local gastronomy.
