Description:

This exclusive luxury villa in planning is part of a new construction project called "Plein Soleil" in a sought-after residential location in Sol de Mallorca, in the southwest of Mallorca. Surrounded by numerous beautiful bathing bays, pine forests and green zones, 5 detached luxury villas are currently being built in a combination of modern architecture, high-quality natural materials and the finest furnishings. The rooms are all characterised by the large, open and bright interiors; one of the many highlights is the spacious living and dining area with semi-open kitchen area with cooking island mouth high ceilings, as well as 3 wide window fronts facing the pool terrace, which thus allows the interior to seamlessly merge into the outdoor area. The villa offers a total of 5 bedrooms and 5 bathrooms, all ensuite, a patio, a panoramic terrace on the first floor with space for a Jacuzzi and/or summer kitchen, a second living room on this floor, and many terraces and lawns for sunbathing around the pool. The villa is equipped with air conditioning w/c, underfloor heating, a garage for 2 cars, sanitary facilities by Villeroy & Boch, fittings by Dornbracht, a designer kitchen by Gunni&Trentino, kitchen appliances by Gaggenau and an alarm system. This property is in a very good location in the middle of a lively infrastructure, close to restaurants, supermarkets, international schools, beaches, golf courses and medical centres. The villa is ideal as a year-round residence as well as a holiday home. The marinas of Puerto Portals and Port Adriano and the island capital Palma are 10-20 minutes away. Completion: 2025.
