Description:

This modern style duplex offers a living experience that combines the comfort of an apartment with the feeling of being in an independent house. It is ideal for families or those looking for space and privacy. With four spacious bedrooms, two very large double and two singles.

The design is distributed on two floors carefully planned to maximize natural light in every corner. Large windows and balconies let in abundant sunlight, creating a bright and welcoming atmosphere in all common and private areas.

The open concept on the main floor integrates a living room, dining room and kitchen, all connected, encouraging interaction and continuous flow between spaces. In addition, the apartment has two full bathrooms.

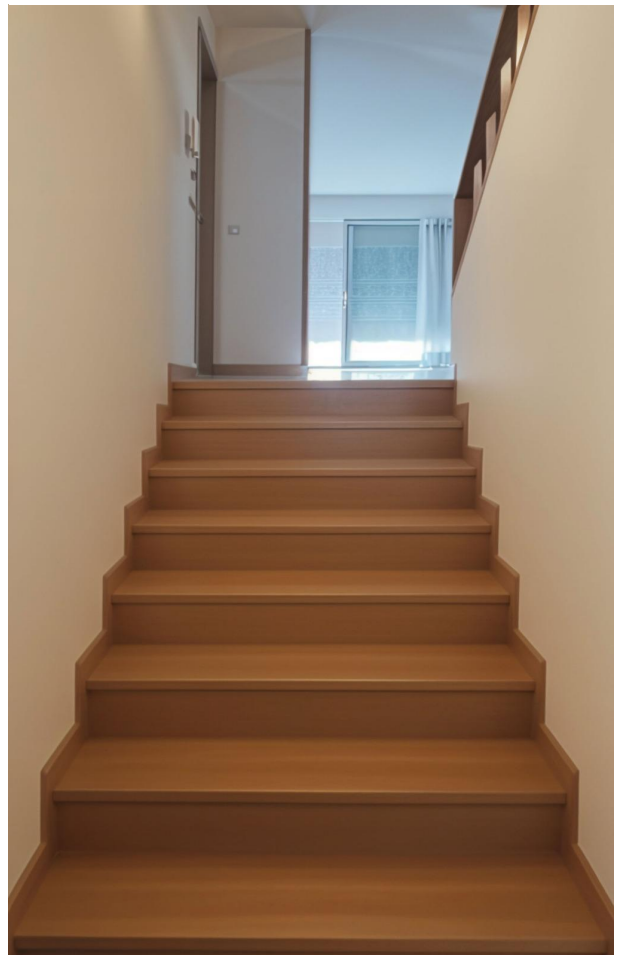

The design of the duplex, with its spacious layout and feel, along with the abundance of natural light, offers a home-like living experience, with the added advantage of being in a more central or urbanized location. It is a space that provides both the privacy and warmth of a traditional home.
