Infrastructure:

Description:

Plot of 937 square meters in Sils, Girona, strategically located in the heart of the village.

The land is developable and has possibilities to build single-family or multi-family houses up to 12 floors with its corresponding services.

Located just 20 minutes from the city of Girona and the Costa Brava, this plot has very good road connections and represents a unique opportunity to invest in an enclave that fuses the best of urban and rural life.
