Description:

This plot, spanning 1,835 square meters in Son Toni, comes with a project and licence for two 258-square-meter, 3-bedroom villas complete with swimming pools and underground garages. The option to buy just one of the plots is also available. The estimated building cost is €700,000.

The houses will boast a design that blends contrasting materials such as sandstone, concrete, glass, wood and steel. Abundant windows will flood the interiors with natural light, seamlessly merging indoor and outdoor living spaces. The exterior will reflect the local landscape, incorporating pines, oaks, and wild shrubs like rosemary.

On the ground floor, an open-plan layout will comprise the day area, housing the living room, kitchen, and dining room, alongside a guest toilet and a bedroom with an en-suite bathroom and dressing room. The pool and a large terrace complete this floor. Upstairs, there will be two spacious en-suite bedrooms with walk-in wardrobes and private terraces, alongside an office, laundry room, and guest toilet.

The project emphasizes high-quality materials and amenities, including a dual heat pump for both cooling and heating, an air renewal system, water filtration and osmosis, a lift, and solar panels for sustainable energy generation.

This investment project prioritizes sustainability, comfort, modern Mediterranean design, and cutting-edge technology, all situated in one of the most desirable urbanizations in northern Mallorca.
