Infrastructure:

Description:

Beautiful building plot with pool and garage in the center of Capdepera.

The plot has an area of about 255m², which is ideal for building a house. A pool and a garage are already present. The access to the plot offers a wide and spacious entrance.

The location of the plot is special because it is just a few meters from the old and historic center of Capdepera, where you can find the small stores, boutiques and restaurants. The health center is also just a few streets away. In the immediate vicinity are also four well-known and popular golf courses, which can be reached in just a few minutes drive.

Kensington International cooperates with renowned architects and builders, to whom we will gladly put you in contact, if desired. In addition, we accompany you competently during the entire construction phase, from the planning to the final building inspection.

Please contact us for further information and/or to arrange a viewing: +34 670 275 663 or arta@kensington-international.com.
