Description:

This exquisite detached house with a separate apartment and a studio for guests is located in the picturesque community of San Juan de la Rambla, just 250 metres above the Atlantic Ocean. It offers breathtaking sea views and combines generous living space with luxurious comfort on a spacious plot.

Situated in a wonderfully peaceful location with far-reaching views, the property extends over an impressive plot of over 17,000 m². With a usable area of over 300 m², it offers plenty of space and various utilisation options on a total of two floors.

The distribution of the property as a whole comprises a total of 9 rooms, including 5 spacious bedrooms and 5 modern bathrooms.

The main house extends over two floors with large, high-ceilinged rooms. The rooms are bathed in sunlight through the numerous windows. From almost all rooms of this architect-designed house, the new owner will have a fantastic view of the Atlantic Ocean.

Upon entering the house, you are immediately greeted by a bright hallway that leads into the open-plan living/dining area with a cosy fireplace and access to the sea-view terrace.

The adjoining kitchen with access to the BBQ area in the garden leaves nothing to be desired and offers plenty of storage space.

A bedroom with built-in wardrobe is currently used as an office.

The lower living level is completed by a fully equipped bathroom.

An open staircase leads to the gallery on the upper floor.

Here there are three bedrooms, two bathrooms and three wonderful terraces that invite you to relax.

The main house also has its own sauna and fitness room.

There is also a cosy apartment with a separate bedroom and a studio for friends who come to visit.

A particular highlight of the house are the numerous terraces, which face in all four orientations and offer sun and shade at any time of day.

This property is a perfect combination of luxury, comfort and a unique location with sea views. An ideal home for buyers who value both space and privacy and are looking for harmonious living in one of the most beautiful regions.

Location:

The municipality of San Juan de Rambla is located in the north of Tenerife, bordering Los Realejos and La Guancha. The municipality's greatest assets today are its varied landscapes, which include mountainous areas as well as beaches, and the mix of modern life and a more traditional lifestyle. The old town with its historic buildings, a seafront promenade with some restaurants known for their fish specialties and the quiet location in the beautiful countryside make this spot on the Atlantic coast particularly attractive.
