## Description:

Three Family houses for sale direct near the center of the village in San Jose.

These three houses are just located at the entrance of San Jose. Distributed over 2 plots of more than 7000 m², these Villas are an opportunity with many possibilities for large families or for investors. All three houses need a firm refurbishment, although they are basically well build and very livable, the houses could use an optical lift to modernize them and bring them into the next decade.

From the top house which is 280m2 one has an amazing view over San Antonio bay. Overlooking the valley of San Agustin and the inland of San Jose this view is unique. Being the only house on top of the hill this property offers space and privacy. The other two houses share the same access but also have huge potential to make them your own with a modern design.

Although they can be sold separated the current owner prefers to sell them as a package.

One of the Villas has a swimming-pool, whereby the other two still have the possibility to build a shared swimming-pool . Near to various good locations such as Cala Tarida, Cala Conta Cala Bassa as well just 10 minutes to the airport logistically this is a great location to be. San Jose with all it's amenities is on walking distance.

The opportunities and possibilities are endless. Please contact us directly to explain you more about this unique project
